

WALLTOPIA

ACTIVE ENTERTAINMENT

WALLTOPIA

ACTIVE ENTERTAINMENT

Walltopia Active Entertainment product line evolved naturally from our experience in the climbing wall industry and the natural human craving for play. We were driven by the desire to transform physical activity into amusing and purposeful play, suitable and entertaining for everyone, with no need of specific sport preparation and minimum equipment required for the participants. Providing versatile experience, in their core our products share one and the same goal. They help us get active and encourage us to spend more time with our family and friends in a meaningful, present way. That's what we call active entertainment.

Walltopia is the world leader in the design and production of climbing walls. The company was founded in 1998 and to date has over 2000 projects in 80 countries on 6 continents.

ADVENTURE HUB

Adventure Hub incorporates a variety of active entertainment attractions under one roof through custom theming to deliver the ultimate adventure experience. It is designed to fit customers' expectations for high people throughput, low maintenance and to promote repeatable visits.

ADVENTURE TRAIL

Adventure Trail is an elevated playground that allows participants to experience the thrill of heights without the need of a harness. Its tunnels of nets and obstacles are a great way to diversify any entertainment center in a safe environment. Its structure is made to fit almost any location and provide optimal space utilization.

NET MAZE

Net Maze offers a modular design with height variation options and various obstacles, creating an elevated playground that makes kids feel like they are in a never-ending maze of fun.

TREE COURSE

The Tree Course is a ropes course with outstanding design. Unlike regular ropes courses that put the focus mainly on functionality, the Tree Course is also designed to captivate visitors' attention. It combines a great physical challenge with an immersive experience no other ropes course can rival.

SLIDES

Whether straight or twisted, open or closed The Slide is a facility for having fun, which can be placed as an entry or exit of other attractions such as the Cloud Climb, Adventure Trail or Elevated Playground or can be placed as a stand alone structure. Adding The Slide to any other attraction provides a fresh and joyful experience.

TRAMPOLINES

Walltopia Trampolines are unharnessed activity for the whole family. It is a multi-activity playground suitable for all age groups.

Fun Walls are climbing wall attractions for children and young adults that enhance cognitive, social and emotional skills through interactive challenges and team games.

ROLLGLIDER

Rollglider is an aerial attraction driven by gravity and controlled by the participant's body movement. The experience feels like a mix of hang gliding, coaster ride and proximity flight in a safe and accessible environment.

NINJA★COURSE

Ninja Course provides a great workout for the whole body—challenging strength, endurance, agility and balance in a completely safe environment.

CLOUD CLIMB

Cloud Climb is a little gem in our portfolio, especially designed for the little ones. A cross between the classic playground and a maze, this unharnessed attraction allows 4 to 14-year-old kids to experience a unique feeling of freedom; much like jumping from cloud to cloud.

ROPES COURSE

Ropes Courses challenge flexibility, balance and strength in a thrill-boosting way, while ensuring maximum safety in relation to industry safety standards.

ZIPLINES

Zip Lines give a sense of flying: among trees, above waters and canyons or in a shopping mall atrium and no matter where, they make the adrenaline levels go up.

CAVES

Caves turn free space into an adventurous and diverse amusement area and are a great way to experience a much realistic cave walk combined with educating elements.

OVER 2000 PROJECTS
IN 80+ COUNTRIES ON 6 CONTINENTS

Founded in Bulgaria in 1998, Walltopia is a world leader in the Climbing and Adventure & Leisure industries. The company started out with the purpose of designing and manufacturing the most advanced climbing facilities in the world.

Our passion for science, technology and our obsession with excellence and safety, made us a leader and top expert in the Climbing and Active Entertainment industries.

We pride ourselves with our highly complex projects that always deliver expected results – starting with the design, moving on to the installation and finally – the certification.

Today we have the largest portfolio of classic and novel attractions that combine fun and entertainment with healthy doses of adrenaline for people of all ages.

With sales offices in the USA, China and head office in Sofia, Bulgaria, and four production plants employing more than 500 people, to this day, we have produced over 2000 projects in 80+ countries and on 6 continents.

Our products are installed across adventure parks, amusement parks, shopping malls, gyms, recreational areas, ski resorts, schools and universities, hotels, and more.

LET'S TALK ABOUT YOUR PROJECT
