

ROLLGLIDER

BRING THE WHOLE FAMILY TO THE FEC

Families are searching for fun and engaging experiences more than ever and Family Entertainment Centers are the perfect place to spend time together. Competition amongst FECs is rising with each one of them trying to offer more and better attractions that would appeal to all members of the family and have them return again and again.

Moreover, we are well aware that increasing square space is not an easy task. That's why we have designed the Rollglider to be space-efficient and utilize otherwise unused ceiling space. Without sacrificing square footage, the Rollglider increases your revenue stream by attracting visitors of all ages and guarantees an experience for everyone to enjoy.

GRAVITY ROLLGLIDER

EXPERIENCE THE FEELING OF FLYING

Who's never dreamt of flying? The Gravity Rollglider is not only an anchor attraction, but it's also a social media opportunity as visitors snap their family and friends having the epic aerial ride. Accessible to all ages, yet requiring courage, this one of a kind attraction will intrigue an increasing number of curious visitors and newcomers.

ELECTRIC ROLLGLIDER

GLIDE AROUND THE FEC

Operational above low-height attractions like soft play, trampolines or arcades, the Electric Rollglider is ideal for utilizing unused ceiling space. Enabling visitors to control the speed of their own flight, this Rollglider makes for an outstanding FEC upgrade. The battery-powered adrenaline activity is loved by children and adults who dare to take their experience to the next level.

SAMPLE PROJECT

COMPONENTS	STRUCTURE	LENGTH	CAPACITY	STAFF MEMBERS	SAFETY ZONES
● Unified start/finish platform ● Rollglider track ● Safety control system ● Trolley	Suspended	85m (279 ft)	60 ppl/hour	1	● At least 2.2 m from the track to any obstacles below ● At least 2 m on each side of the track

WHY ROLLGLIDER

The Rollglider is not only the fastest and most thrilling zipline roller-coaster on the market, it's also the most flexible in terms of solutions. Each of our projects is custom tailored to our client's need and venue in order to achieve the best possible outcome.

A world map with a light gray background. Five red circular markers with white centers are placed on the map to indicate project locations. Each marker is accompanied by a text label: 'North America' (top left), 'Europe' (top center), 'Asia' (top right), 'South America' (bottom left), and 'Africa' (bottom center).
