

CLOUD CLIMB

by **WALLTOPIA**

**Transform any space into
a beautiful landmark
of movement and play.**

Cloud Climb is a little gem in our portfolio—especially designed for the little ones.

A cross between the classic playground and a maze, this unharnessed attraction allows 4 to 14-year-old kids to experience a unique feeling of freedom; much like jumping from cloud to cloud.

Cloud Climb is available in standard and custom-made models.

COMPONENTS

Structure

Cloud Climb structure can be duplex-coated: first it is hot-dip galvanized and then painted.

This greatly increases resistance to corrosion and makes Cloud Climb suitable for both indoor and outdoor uses.

Platforms

The platforms can be flat or curved, depending on the desired style. They can come in one solid color or with a multi-color design printed on them and can have LED underbody lights. This allows the Cloud Climb to be easily themed or branded.

Platforms are available in plywood, fiberglass (GRP) and plastic

Safety net

The nets can be made from steel or from polyester. We also offer anti-climbing nets that are denser and prevent visitors from climbing on the outside of the structure.

WALLTOPIA

OVER 2400 PROJECTS
IN 80+ COUNTRIES ON 6 CONTINENTS

Founded in Bulgaria in 1998, Walltopia is a world leader in the Climbing and Adventure & Leisure industries. The company started out with the purpose of designing and manufacturing the most advanced climbing facilities in the world.

Our passion for science, technology and our obsession with excellence and safety, made us a leader and top expert in the Climbing and Active Entertainment industries.

We pride ourselves with our highly complex projects that always deliver expected results – starting with the design, moving on to the installation and finally – the certification.

Today we have the largest portfolio of classic and novel attractions that combine fun and entertainment with healthy doses of adrenaline for people of all ages. With sales offices in the USA, China and head office in Sofia, Bulgaria, and four production plants employing more than 500 people, to this day, we have produced over 2400 projects in 80+ countries and on 6 continents.

Our products are installed across adventure parks, amusement parks, shopping malls, gyms, recreational areas, ski resorts, schools and universities, hotels, and more.
