

WALLTOPIA

TRAINING **ZONES**

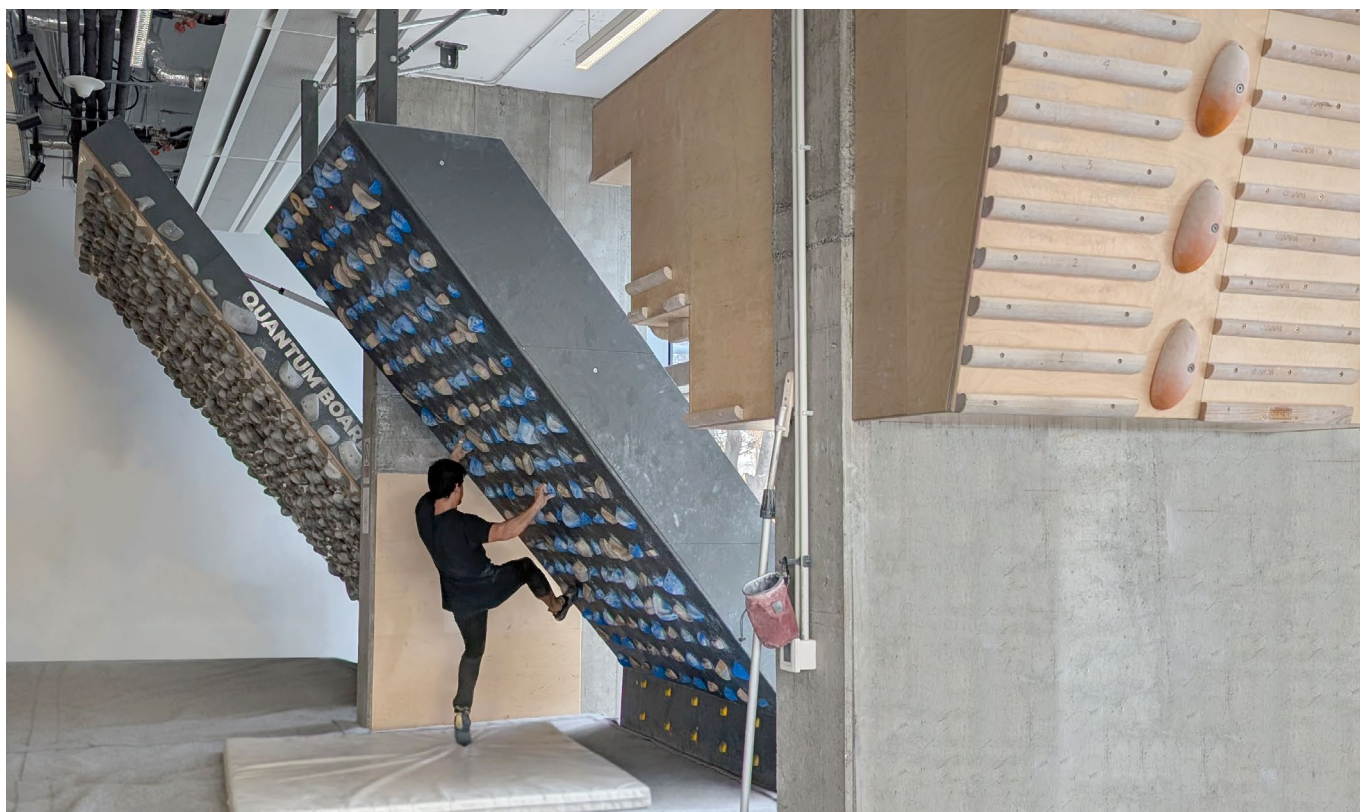

About

From compact training corners to expansive, multi-board zones with fully customized layouts — we do it all. We offer the widest selection of training boards on the market and specialize in designing tailored spaces that align perfectly with your facility and bring your vision to life.

We offer **EVERYTHING**

- Quantum Board
- Kilter Board
- Moonboard
- Tension Board
- Grasshopper Board
- Campus Board
- L-shape training zone
- Custom Spray Board
- Power Box

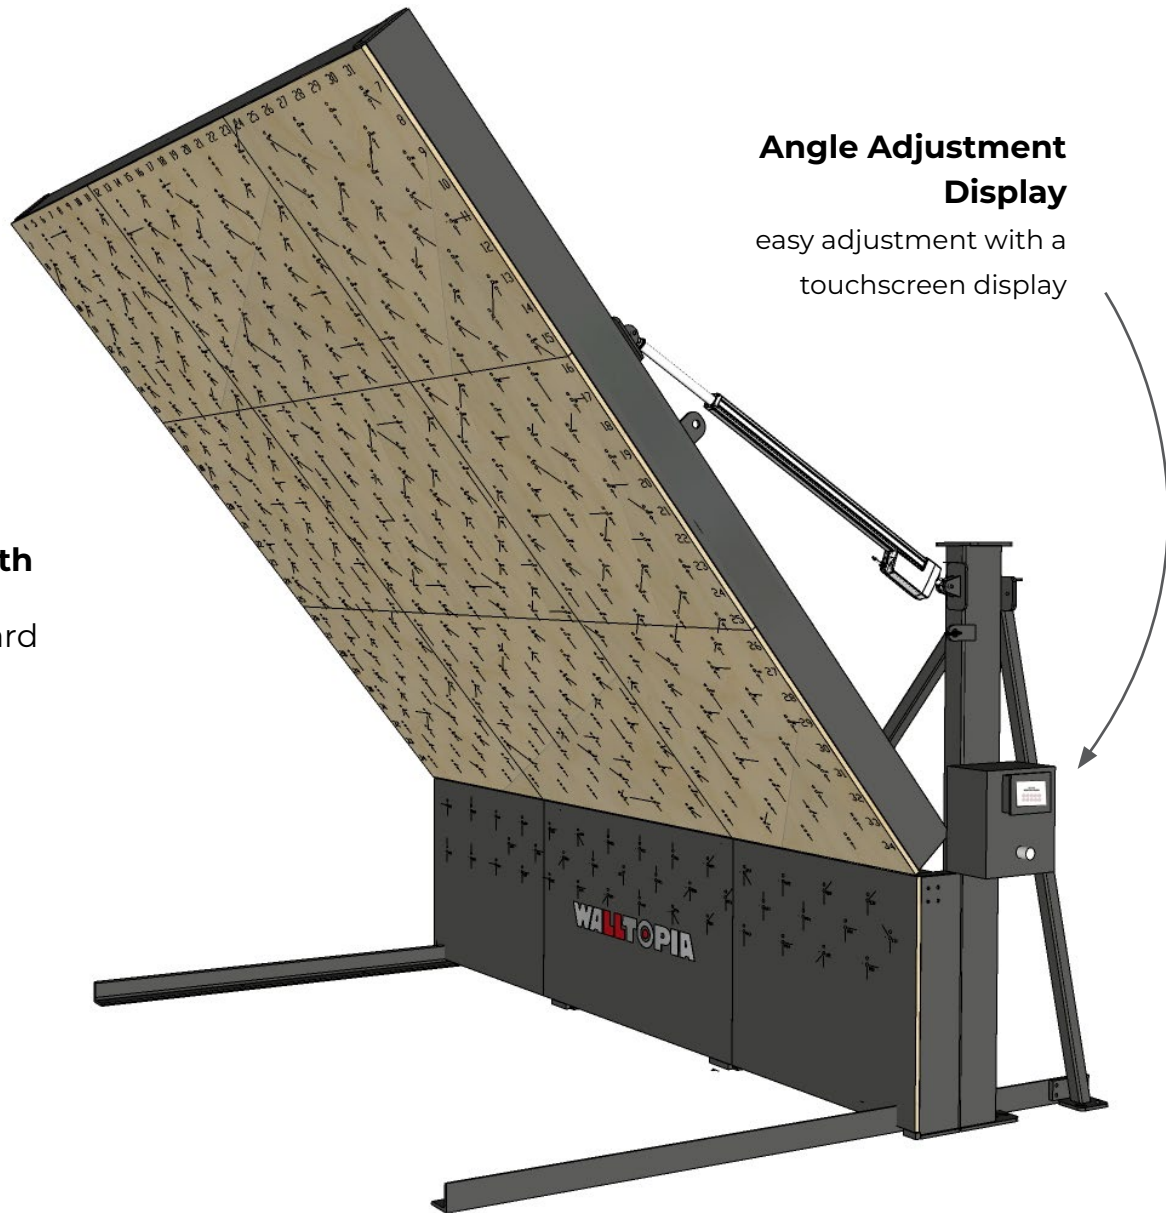

Adjustable Board Frame

One Frame For All

The Walltopia adjustable board frame 12x12 is a self-standing structure, engineered to meet boulder wall load standards at every angle of inclination. The board comes with an electrical adjustment system, which makes it easy to install & maintain.

Compatible with

- Quantum Board
- Kilter board
- Tension board
- Moonboard
- Grasshopper

Specs & Features

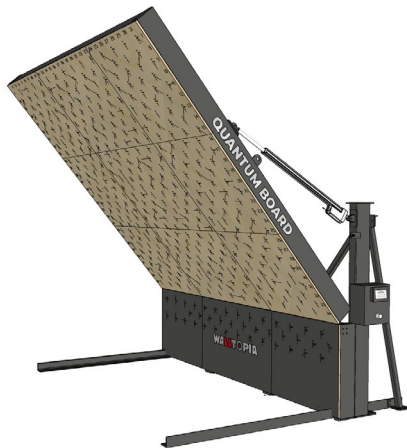

- **Angle Adjustment:** 15° to 70°
- **Adjustable angle system:** electrical, easy to maintain
- **Angle adjustment control:** wall angle adjustment display
- **Structure:** self-standing
- **Standards compliance:** fully compliant with EN boulder wall standard for loads applied to every angle position
- **Layout:** Quantum Board, Kilter Board, Tension Board, Moonboard, Grasshopper,
- **LED hardware:** available to order through Walltopia

- **Angle Adjustment:** Walltopia adjustable frame or a fixed angle as per the client's request
- **Standard holds sets:** available to order through Walltopia*
- **LED hardware** available to order through Walltopia*
- **Climbing surface:** Tension Board 2 12x12 feet (366x366 cm) and 12x8 feet (366x243 cm)
Tension Board 2: 10x12 feet (304x366 cm) and 10x8 feet (304x243 cm)

10X12

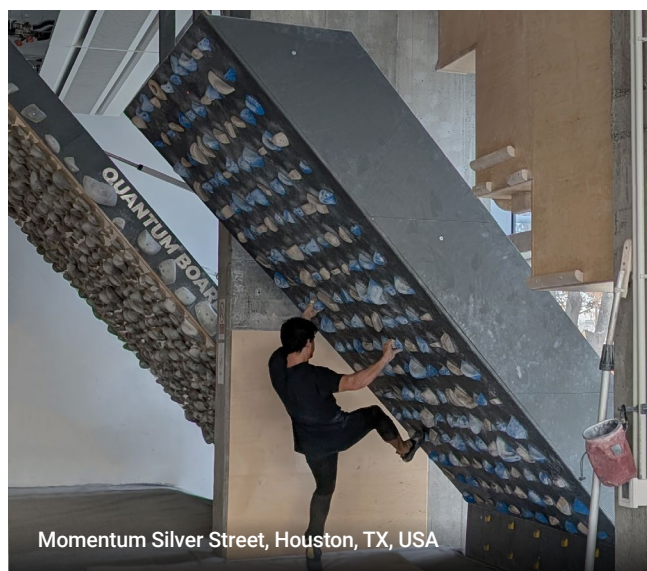

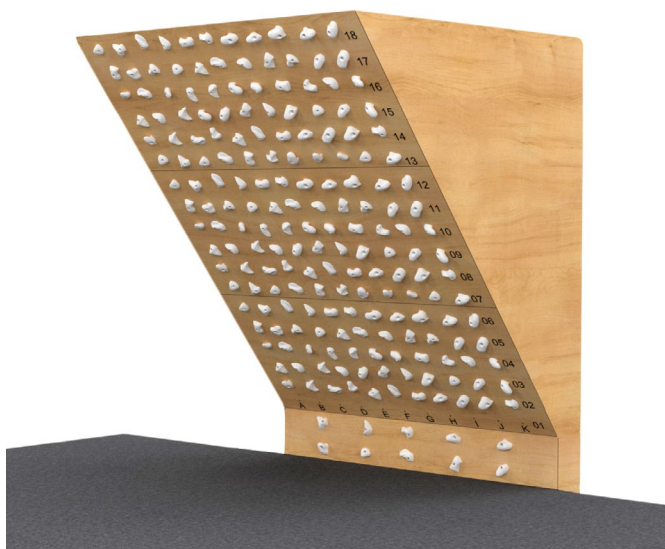

12X12

Earth Treks Hampden, Baltimore, MD, USA

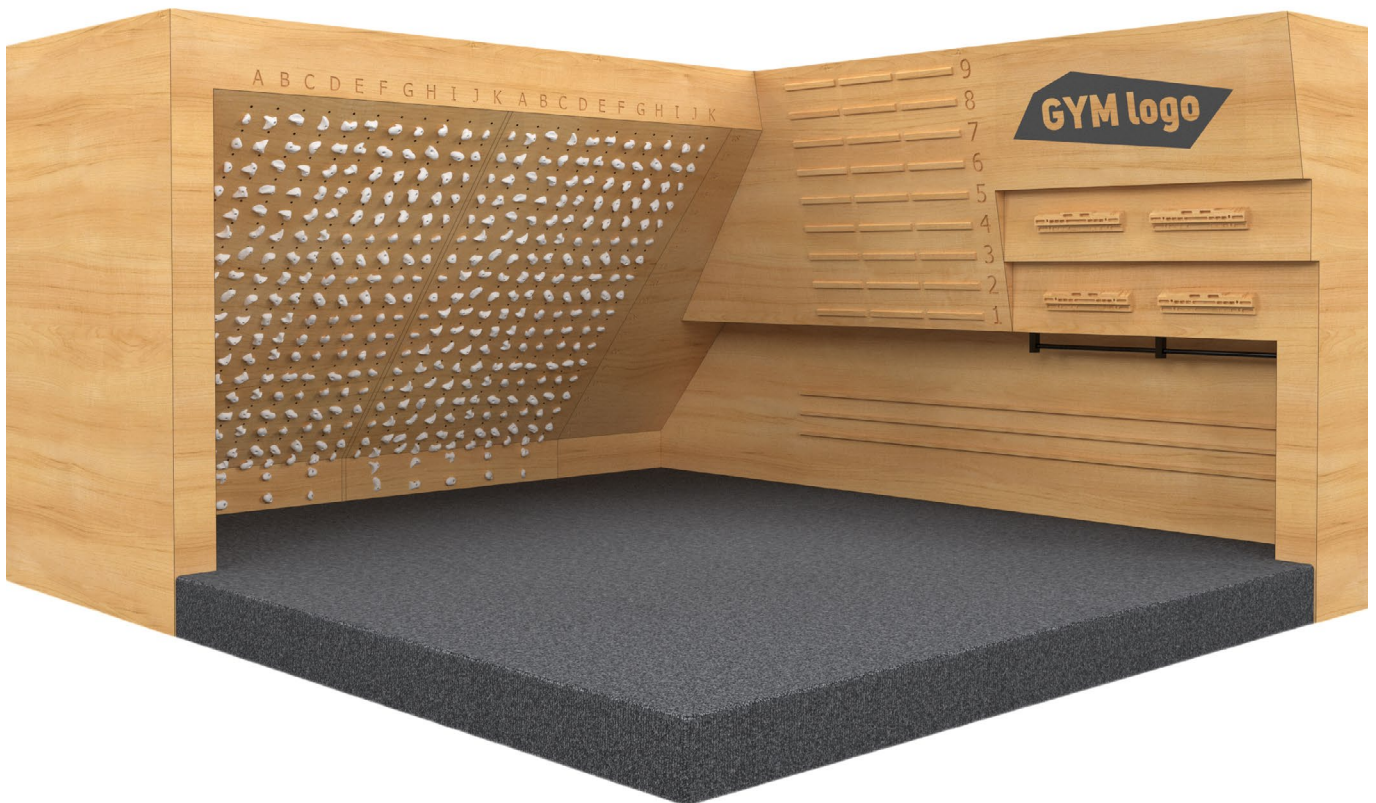

Moon Board Fixed Angle

- **Overhang:** 40°
- **Standard holds sets:** available to order through Walltopia*
- **LED hardware:** available to order through Walltopia*
- **T-nut spacing:** 20 x 20 cm
- **Climbing surface area:** 9.8 m² (105.5 sq.ft)

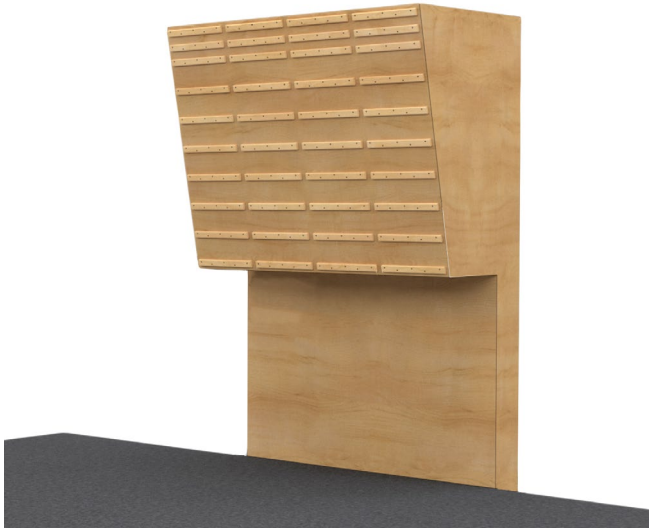

L-Shape Training Zone

It's a common practice for climbing gyms to build training walls along building corners. We developed a signature design that can be taken as a template and adjusted based on the client's preference. One side of the unit is a 40° overhanging wall (angle may vary upon request) with a size that can accommodate a commercial Kilter Board or a side of the unit consists of standard campus wall with a width depending on the number of campus lines required.

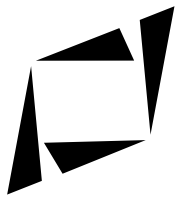

Campus Board

- **Overhang:** 15°
- **Campus rungs count:** 10
- **Campus rungs width:** 50 cm (20")
- **Surface area of a one-line campus board:** 2.2 m² (24 sq.ft)

A new Dimension in Home Training!

BASIC EDITION

- Metal frames, pull up bar and 4 plywood panels
- 4 pcs of pinches
- 4 pcs of pockets
- 2 hemispheres- 12 cm in diameter
- 12 pcs wood crimps (6 sizes x 2 pcs each)
- 2 balls – 12 cm in diameter
- 2x110 cm long 6 mm cords - to attach the balls to the pull-up bar
- Hardware for the main body
- Hardware for the holds and accessories
- 4-6 pcs of anchor rods
- 6 mm and 8 mm L-shaped hex-keys

BUTTERFLY EDITION

- Metal frames, pull up bar and 4 plywood panels
- 4 pcs of pinches
- HRT Butterfly finger-board
- 2 hemispheres- 12 cm in diameter
- 8 pcs wood crimps (6 mm, 8 mm, 10 mm, 15 mm x 2 pcs each)
- 2 balls – 12 cm in diameter
- 2x110 cm long 6 mm cords - to attach the balls to the pull-up bar
- Hardware for the main body
- Hardware for the holds and accessories
- 4-6 pcs of anchor rods
- 6 mm and 8 mm L-shaped hex-keys

PULLEY SYSTEM

The Pulley System is an optional add-on, not included in the Basic or Butterfly packages.

- Metal arm
- 2 pulleys
- 2 maillons
- 1 ring bolt - M10
- 4 meters 6 mm cord

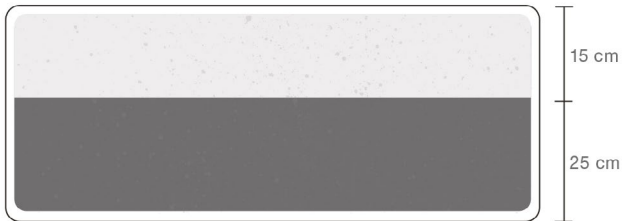

Flooring Solutions

The average height of a training board usually reaches the point of 4 meters which can be treated as a bouldering wall when it comes to flooring. This is why we recommend our standard boulder mat BM400.

BM 400

- Mid-density polyurethane foam 30-35 kg/m³
- Low-density polyurethane foam 18-25 kg/m³

Features of BM 400:

- Thickness: 400 mm (15")
- Multilayer design
- Overlapping layers technique
- Good walking stiffness
- Good energy absorption
- Recommended max fall height: 4m (13 ft)
- Compliance with AS 2316.1

Standard Options:

- PVC Vinyl, Modular & One cover
- Combo Vinyl + Carpet Top, Modular & One cover
